

West Virginia School Health Technical Assistance Center

Please join us Thursday, November 14, 2014

from **2:00-3:00 p.m. (note new time)**

for a free webinar on

Cystic Fibrosis: Nuts and Bolts

Managing a child with Cystic Fibrosis (CF) can be challenging for health care providers and parents. This webinar will explore the epidemiology of CF while reviewing the frequent complications and key infection control issues. It will provide key steps to care such as airway clearance modalities, gastrointestinal therapies and nutrition. Some common issues experienced by children diagnosed with CF while attending school will be discussed in this webinar along with future therapies. Please join West Virginia's Pediatric Pulmonologist, Dr. Maple Landvoigt, in this learning experience so we can better care for students diagnosed with CF.

This training is offered only via WebEx (no conference call lines will be available). **The Webinar is FREE but you must register in advance.** We are limited to 100 WebEx participants, so please **register early** and plan for group access when able.

**Registration Link, CEU Information and Presenter Bio
are available on our webpage:**
