

West Virginia Performance
Effectiveness Review Tool

2009 WV PERT
NEW & IMPROVED

HISTORY

1998

Guidelines for WV School Based Health Centers were adopted.

2003

Guidelines were revised as *Principals, Standards and Guidelines for School-Based Health Centers in West Virginia*

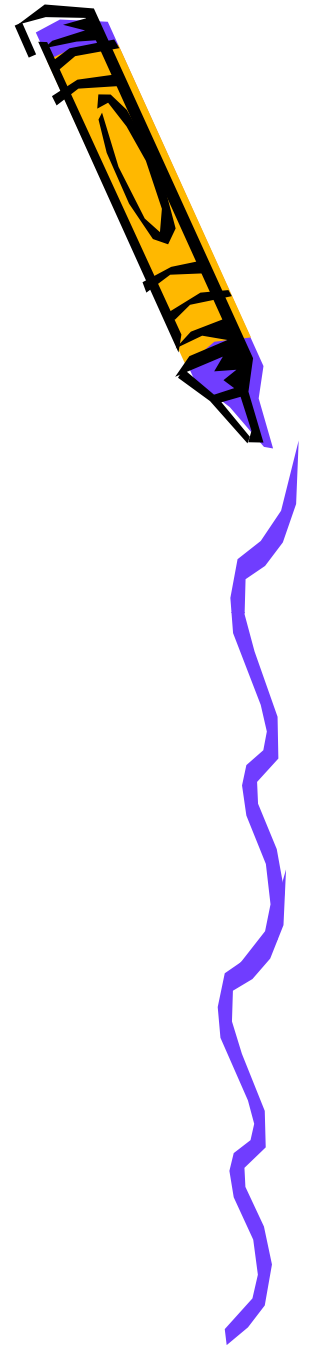

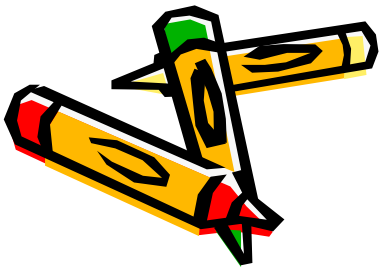

2004

WV PERT was implemented.

2009

Guidelines were revised as *Standards and Guidelines for School-Based Health Centers in West Virginia*.

WV PERT updated to reflect new *Standards and Guidelines*, NASBHC's PMI and National Clinical Quality Indicators

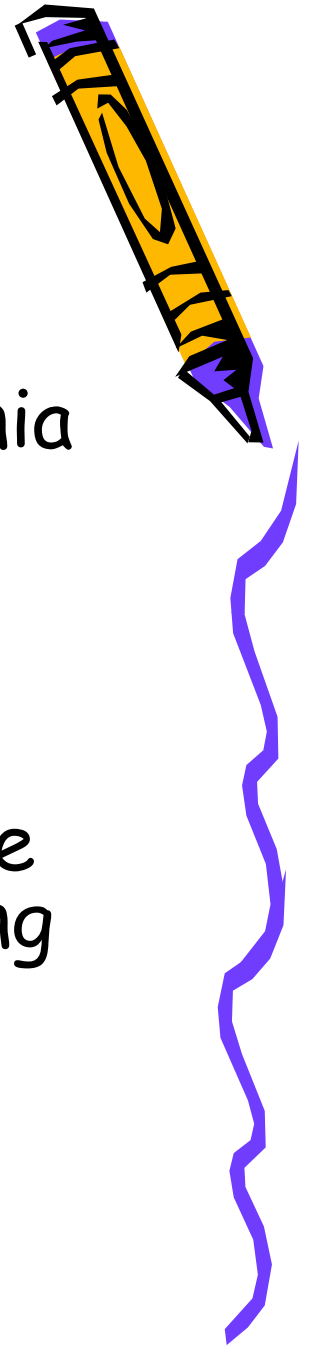

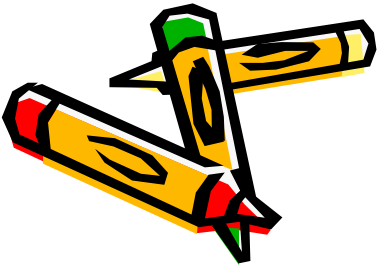

WHO

The West Virginia Bureau for Public Health, Division of Primary Care and West Virginia School-Based Health Assembly (made up of SBHC representatives from across the state) previously adopted the West Virginia Performance Effectiveness Review Tool for SBHC in West Virginia.

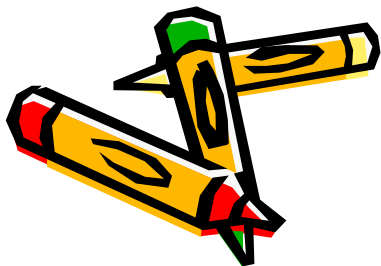

WHAT

- WV PERT is an acronym (West Virginia Performance Effectiveness Review Tool)
- Method by which the Division of Primary Care determines staff of the SBHCs have a thorough understanding of the Standards and Guidelines for SBHCs in West Virginia

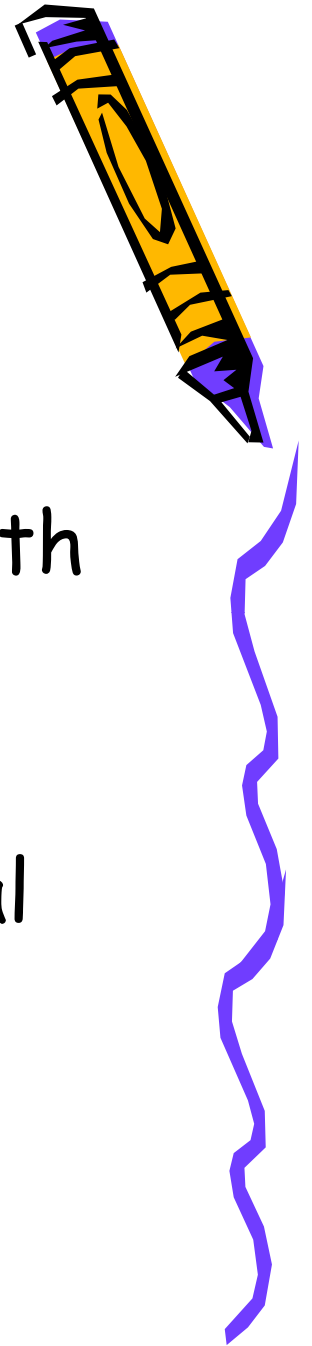

PURPOSE

- Assures that quality medical, psychosocial and educational health services are delivered in accordance with current best practices
- Confirms that state funds are being used effectively and efficiently

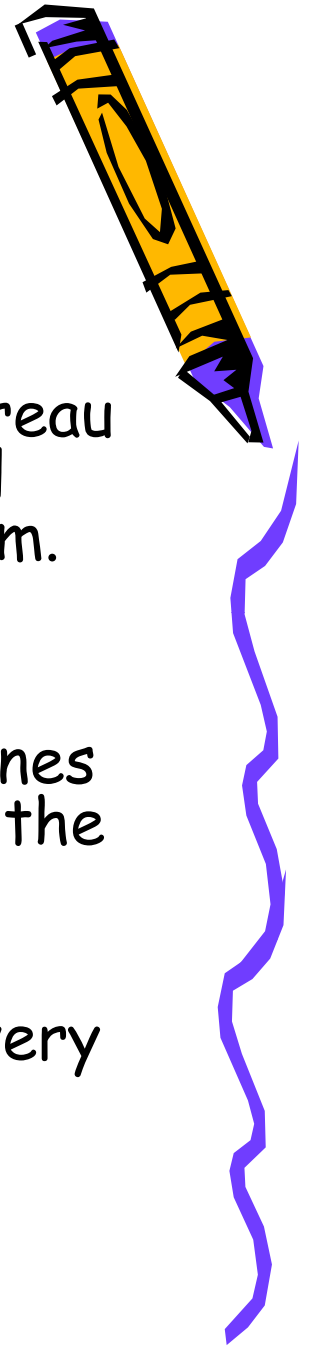

GOAL

- To improve access for West Virginia's students to primary health services
- To meet the physical and emotional health needs of students at their school site

PARTICIPATION

- All SBHC's receiving funding from the WV Bureau for Public Health/Division of Primary Care will participate in the statewide evaluation program.
- The sponsoring organization must:
 - Be knowledgeable of Standards and Guidelines established by the DPC in conjunction with the School Based Health Assembly
 - Complete an annual self-evaluation
 - Be available for a site visit by DPC staff every three years

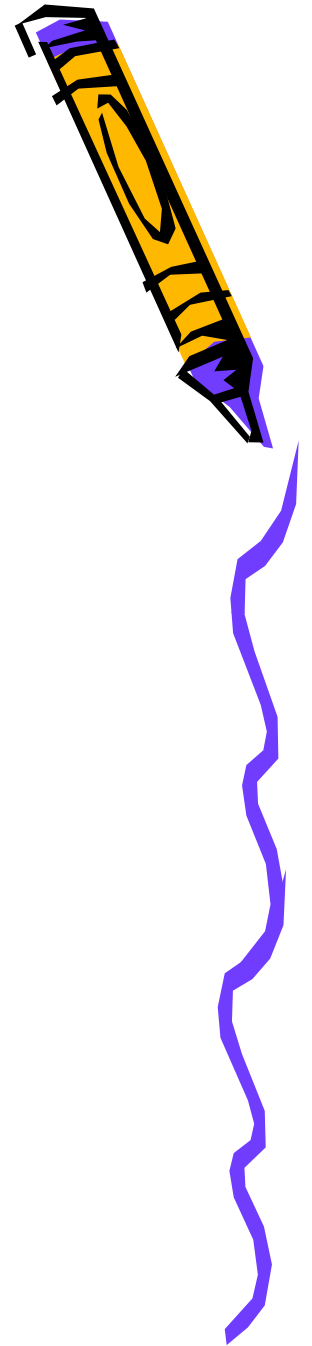

IMPLEMENTATION

- In 2004 each SBHC performed first annual self-evaluation using WV PERT.
- Every three years an external peer review team visits the SBHC to observe, measure and validate the information provided by the WV PERT self-evaluation.
- Centers who comply with WV PERT will receive a "Certificate of Compliance".

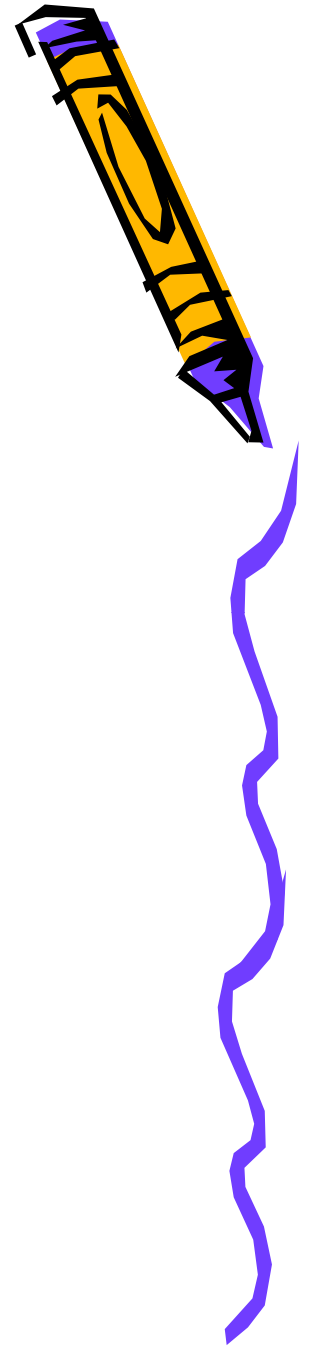

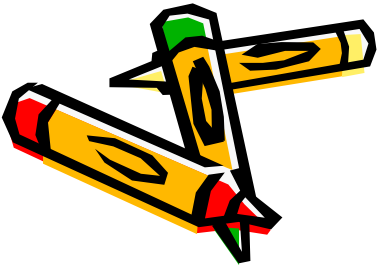

WV PERT NEW & IMPROVED

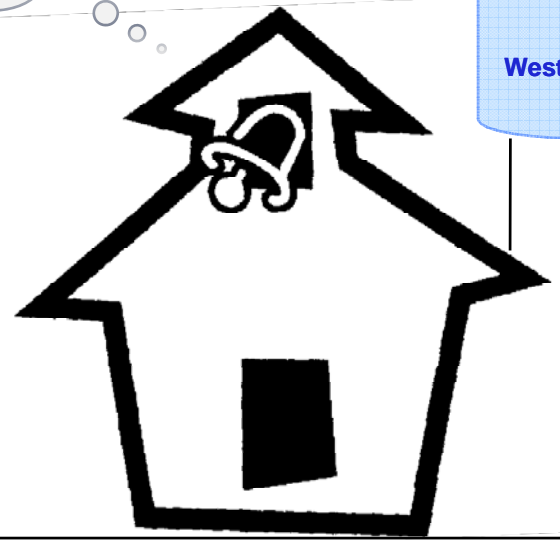

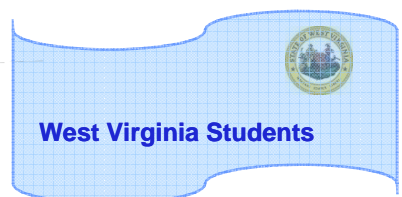

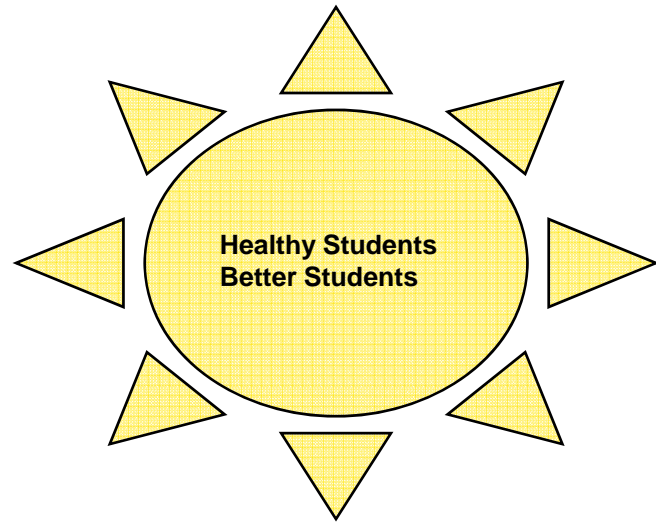

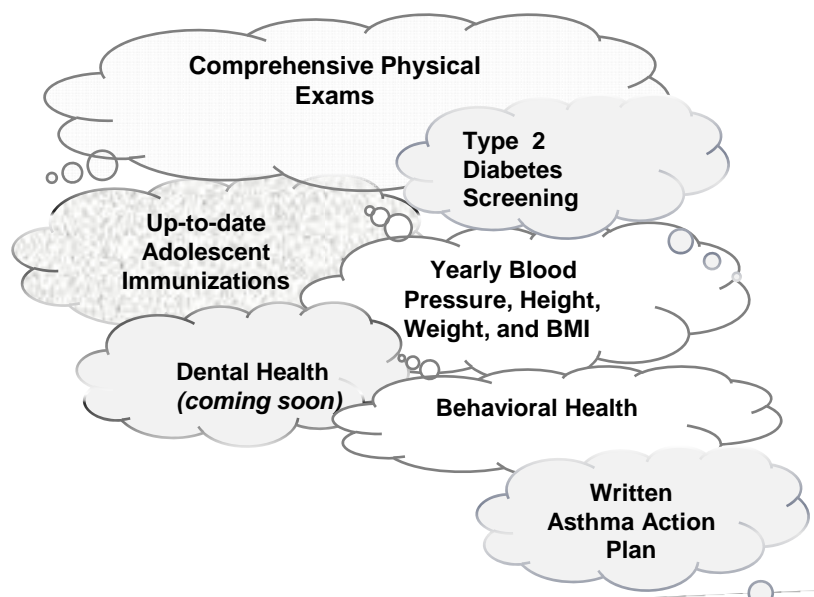

- In 2009 the WV PERT was updated
- More effective and efficient use of time
- New WV PERT reflects review of hundreds of nationally recognized tools and best practices for SBHC
- WV PERT is **ONE** condensed SBHC clinical quality improvement document
- Electronic version

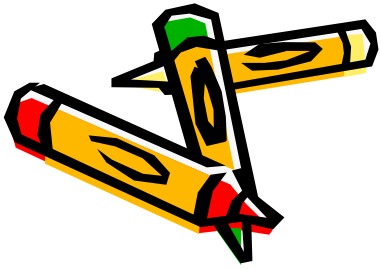

WV PERT NEW & IMPROVED

- Answers simplified—'yes' or 'no'
- Self scoring worksheets
- Meaningful chart audits
- Categories by domains
- New behavioral health section
- Easy to see improvements

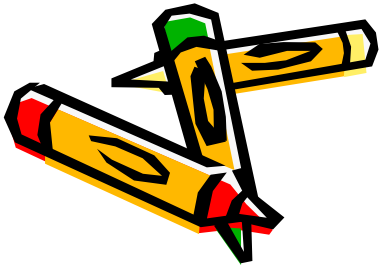

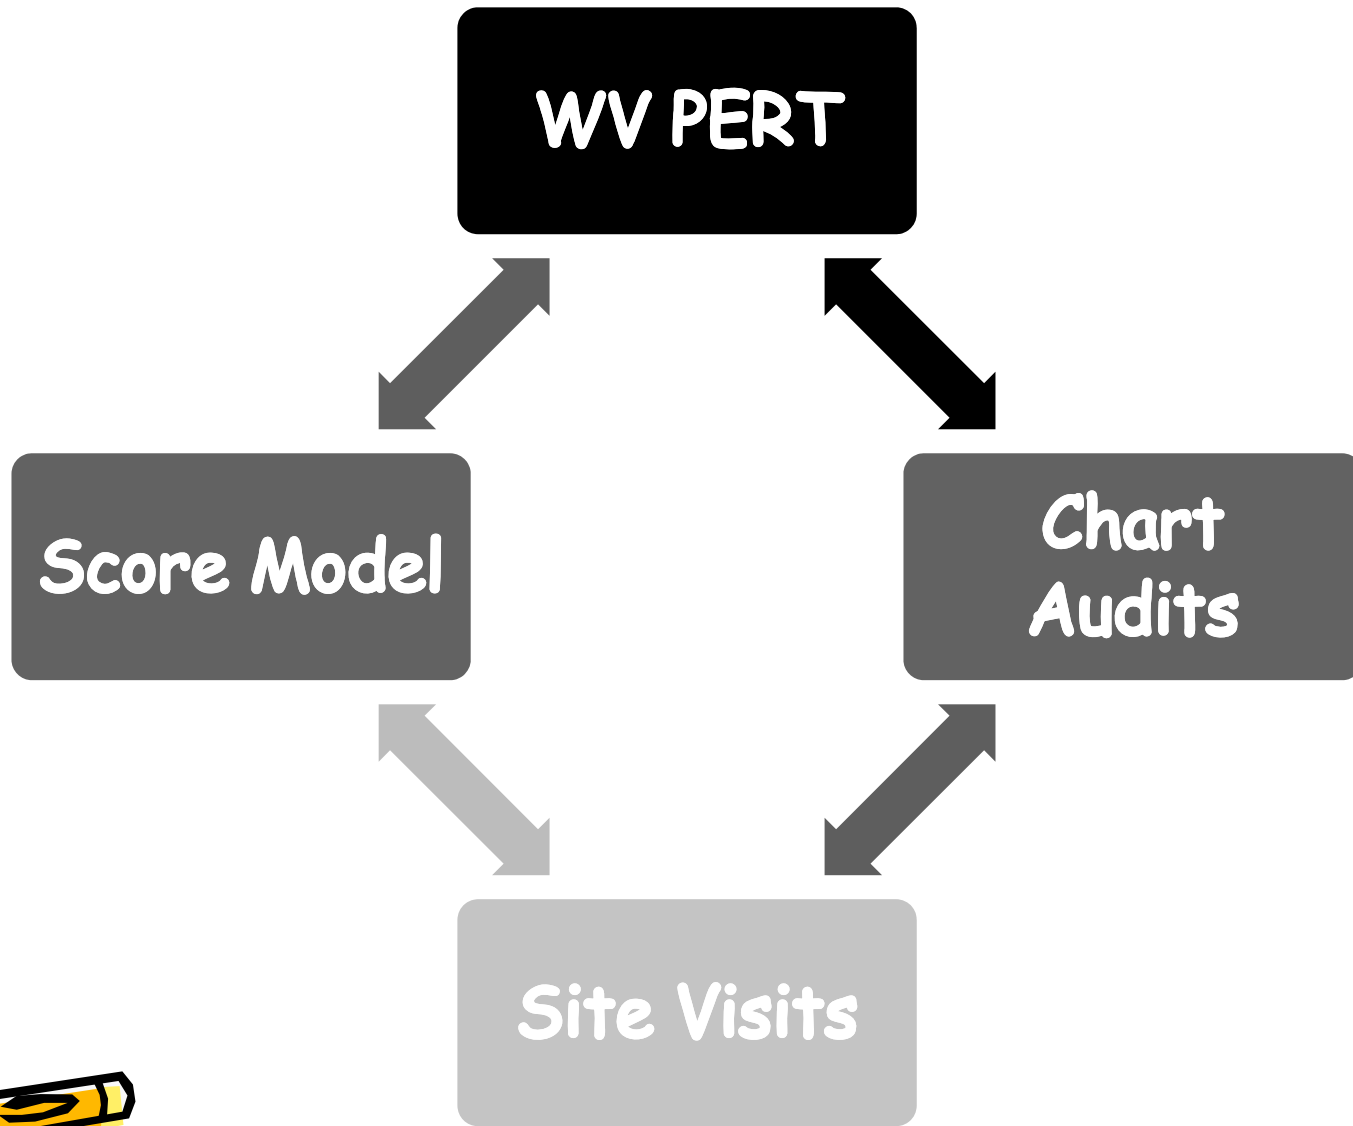

MEDICAL HOME

PATIENT-CENTERED MEDICAL HOME (PC-MH)

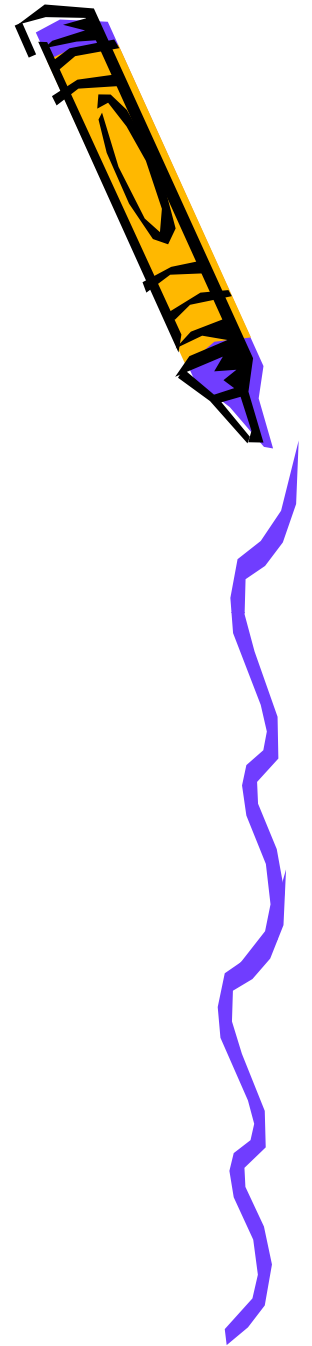

- An approach to providing accessible, family-centered, continuous, coordinated, culturally effective, comprehensive primary care for children, youth and adults
- Preventive, acute, and chronic health services coordinated by provider directed care team/s for patients and families
