

West Virginia School Health Technical Assistance Center

Please join us Thursday, December 6th
from 2:30-3:30 p.m.
for a free webinar on
Nasal Versed

This webinar will discuss signs/symptoms of seizure activity and the new classifications of seizures. Emergency medication options available for use in the school system will be identified as well as current evidenced based practice. Special considerations in planning for students with seizures in the school setting will also be reviewed.

This training is offered only via WebEx (no conference call lines will be available). **The Webinar is FREE but you must register in advance.** We are limited to 100 WebEx participants, so please **register early** and plan for group access when able. *This webinar will be recorded and posted with CEU's for future listening for those unable to attend the live offering.*

**Registration Link, CEU Information and Presenter Bio
are available on our webpage:**
